5. ORDINANCE

A. Motion to approve second reading of an ordinance authorizing division of City Department of Public Services into two departments: "Water Utilities" and "Public Works."

Council Member Smalls moved, seconded by Council Member Bradley. Mayor Scoville asked for discussion. The Administrator stated that given the scope and complexity of the City's operation between the departments, it is his opinion this is the best option. This will not hinder Mr. Heald from expediting his engineering duties and expertise. Council Member Wayne said during Carey Smith's tenure as City Administrator, Mr. Heald was hired as a department head and has two capable individuals who report problems to him; alleviating the need for him to be on scene. She is not in favor of dividing the Department of Public Services. Council Member Barber stated a considerable amount of time was spent discussing this and under Mr. Smith's guidance, Council signed a contract between the Council Members and the Mayor stating *this is the direction we will head, in the best interest of the City*. Because of Mr. Heald's expertise the City has saved a considerable amount of money. Council Member Jayroe said this has to do with the all-encompassing scope of the job. This will alleviate some of his duties allowing more time for the completion of projects involving the engineering aspects that Jonathan does so well. Council Member Kimbrough said this change will not jeopardize any existing projects. We will still go forward and depend on Jonathan for his expertise. Council Member Smalls said when the departments were consolidated he felt this was too much for one person.

Mayor Scoville called for the question.

Council Member Smalls moved, seconded by Council Member Bradley. At a previous Council Meeting, a request to allow mining in Limited Industrial and Heavy Industrial districts was withdrawn by the property owner. Mr. Martin stated this request by 711 Partners, LLC to allow Forest Agriculture as a new zoning district, was presented and approved at the November Planning Commission meeting. It would provide requirements on area, yard, height and signage for the Forest Agriculture District. Council Member Jayroe questioned the chart on page 55 that indicated 5 acres as a minimum lot size in Forest Agriculture.

Mr. Martin stated 711 Partners has petitioned Council to rezone their property from LI to Forest Agriculture. F. Motion to approve payment to Plantation Services in the amount of $24,250 for the repairs and upgrades to Screven Street Park.

Council Member Jayroe moved, seconded by Council Member Bradley. Mr. Martin stated bids were received with Plantation Services being the low bid at $24,250. He noted this project is part of a $30,000 grant and was presented to Council at the September 25, 2014 workshop. The total cost of the project is $35,500; $5,500 more than the grant proceeds. Chris Carter suggested the overage be appropriated from the East Bay improvements in Hospitality Tax funding. The project should be completed by February, depending on the weather. Mayor Scoville asked for comments.

9. FINANCE

A. Motion to approve payment to Statewide Security for a three (3) year lease/purchase of ten (10) camera boxes for $10,000 per year. Each box will contain four (4) cameras.

Council Member Bradley moved, seconded by Council Member Barber. Mrs. Debra Bivens stated the Police Department recommended location of the cameras as follows: 1 at Orange Street Parking lot; 3 on the Harborwalk; 1 at corner of Front and Screven Streets; 1 at corner of Front and King Streets; 1 at Morgan Park and boat landing; 1 at corner of Fraser and Highmarket Streets; 1 at Bayview Park and 1 at corner of Black River Road and Church Street. Council Member Jayroe questioned the request for these unbudgeted cameras. Mayor Scoville said merchants have complained the Orange Street Parking lot is the scene of all sorts of interesting activity, neighbors have been complaining about some of the activities in Bayview Park, and property damage continues along the Harborwalk. It is more cost effective to purchase a package rather than a few cameras. Police Chief Paul Gardner stated the Police Department has received several complaints of activity in the Orange Street Parking lot and patrol has been increased. He believes it would be beneficial to the City to cover the Harborwalk and some of the key intersections. Statewide Security is a very reputable contractor involved in the vista in downtown Columbia. The City would lease the cameras for three years with the option to back out of, or scale back on the number. Mrs. Bivens stated that based on the location of the cameras, some monies could be appropriated from the Hospitality Tax. If approved $5,000 would be obligated for the remainder of this year. Mrs. Jayroe expressed concern with this when there is no fire protection on the Harborwalk. Mayor Scoville said there is a tremendous difference in the cost. Mayor Scoville asked for comments.

Mayor Scoville called for the question.

10. PUBLIC SERVICES

A. Motion to approve entering into an Amended Consent Order, number 13-018-W, with the South Carolina Department of Health and Environmental Control to address and correct violations of the City's NPDES Permit to operate a Wastewater Treatment Plant for the City, the Town of Andrews and portions of Georgetown County.

Council Member Jayroe moved, seconded by Council Member Bradley. Mr. Jonathan Heald presented a Wastewater Treatment Plant Overview and provided a history of the consent orders and a timeline. In October through December of this year he has been negotiating with DHEC on the terms and conditions of the amended Consent Order, which is being presented for Council approval. This is centered around all the violations. The supplemental Preliminary Engineering Report was divided into three groups; priority 1 projects, priority 2 projects and priority 3 projects. The projects which totaled $14.0 million were reviewed and Mr. Heald does not foresee the need for any property acquisition. Quarterly meetings are held with the partners and they have been kept abreast of everything including the cost of the projects. Under the terms of the agreement the City is the owner and operator of the Wastewater Treatment Plant and improvements are the City's responsibility. Costs are allocated back to the partners. The modified Consent Order requires the City to submit a corrective action plan to address the ammonia violation and implement priority 1 projects. The timeline for implementation is based on the signing and final execution of the Consent Order, which he estimates being sometime in January. Based on this estimate, the priority 1 projects could be completed in the summer of 2018. Continued quarterly reports are required and the City has to pay a fine of $5,600. In summary this has been an ongoing problem since 2003, priority 1 projects are to be completed by the summer of 2018, priority 2 projects will follow, and priority 3 projects are to be determined. The goal is to end the cycle of violations of the NPDES permit. When asked, Mr. Heald said at one point, the Town of Andrews could not meet their financial obligations in the terms of the agreement. A sale of their capacity allocation in the plant was negotiated to offset their financial fundability. The City and the County (District) bought some of their capacity which was used to fund their shortfalls. Mayor Scoville asked for comments.

Mayor Scoville called for the question.

B. Motion to approve a Master Services Agreement with Stantec Consulting Services, Incorporated in order to facilitate the delivery of engineering design and consulting services on an as-needed basis from a pre-qualified design firm.

Council Member Jayroe moved, seconded by Council Member Bradley. Mr. Heald stated the City has several master service agreements with engineering design firms. This allows faster delivery of engineering services by pre-qualifying consulting firms and establishing a contract between the City and the consultant. After advertising for RFPs for a design firm that would be used more on a neighborhood (small) scale, Stantec Consulting Services was selected. Scoville asked for comments.

They are asking for 145 days to permit the project after which Council would approve a construction contract and the work would begin. Mayor Scoville asked for comments.

Council Member Smalls moved, seconded by Council Member Bradley. Mr. Heald said this is a grant application that requires the City sign this pledge and submit a copy of our non-waiver defense agreement. Mayor Scoville asked for comments.

11. ELECTRIC UTILITIES

A. Motion to approve Purchase Order with Sumter Utilities for Distribution Line Work in the amount of $200,000.

Council Member Barber moved, seconded by Council Member Bradley. Mr. Alan Loveless stated as in past years, the City would like to use the services of a qualified contractor to perform distribution line upgrades on our system that include replacement of old small copper conductor to improve safety and reliability, expansion of certain lines from single-phase to three-phase to improve service, and capital additions necessary to improve the system. The City advertised for bids and two contractors submitted proposals. Sumter Utilities was the low bid. Mayor Scoville asked for comments.

B. Motion to approve a not-to-exceed estimate of $28,819 provided by Santee Cooper for the installation of protective relays necessary for City Peak-Shaving Generation.

Council Member Barber moved, seconded by Council Member Jayroe. Mr. Loveless said before the City can permanently operate peak-shaving generation in parallel with our distribution system, Santee Cooper requires that protective relaying equipment be installed at their substation to prevent any backfeed of our generation onto their system. The likelihood of that occurring is small but is a protective standard that needs to be met. Mayor Scoville asked for comments.

Mayor Scoville called for the question.

C. Motion to approve the purchase of LED replacement lamps from HD Supply in the amount of $57,420.

Council Member Smalls moved, seconded by Council Member Jayroe. Mr. Loveless noted this amount does not include tax. This project is included in the current Capital Improvements Budget. As a cost savings measure, all existing lamps on Front Street will be replaced with LED lamps, which use 70-80% less energy than the current lamps. They will produce a whiter, cooler light. He said the request for quotes specified a particular manufacturer/model number for the replacement lamps; however, left open the possibility for alternate lamps if they met approval. Bids for three different alternate lamps were received. Samples of those lamps were obtained along with technical information. Mr. Loveless stated he was not satisfied that any of the alternate lamps were of the same quality of the ones specified. His recommendation is to stay with the lamp that was specified. They are rated at 50,000 hours. Once delivered, Electric Department employees will begin installation of the lamps. Mayor Scoville asked for comments.

Mayor Scoville called for the question.
